

Yasin Eniş

Software Engineer · Istanbul, Türkiye · yasin.enis.tr@gmail.com · <https://github.com/yasinenis> · <https://www.linkedin.com/in/yasin-eni%C5%9F/>

Final-year Computer Engineering student at Recep Tayyip Erdoğan University (2022–2027). Currently a full-stack engineering intern at Kamiapps, building the end-to-end architecture of live-data modules for an enterprise B2B web product. Looking for a software engineering role for 2027.

EXPERIENCE

Software Engineering Intern

2026-07 – present

Kamiapps · Remote

- Worked as a full-stack developer on an enterprise B2B web project.
- Integrated the end-to-end architecture of dynamic modules fed by live data.
- Played an active role in the team that brought the project to its launch stage, working remotely.

EDUCATION

Recep Tayyip Erdoğan Üniversitesi

2022-09 – Ongoing

BSc, Computer Engineering — GPA 2.42
